DETAILED ACTION

Applicants' election of Invention of Group I, **Claims 1-9**, in response to the restriction requirement mailed March 22, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Therefore the requirement is still deemed proper and is made FINAL.

Priority

The current application filed on April 20, 2001 claims priority to foreign application, JAPAN 2000-208632 filed on July 10, 2000. Certified copy of the foreign document JAPAN 2000-208632 has been provided.

Information Disclosure Statement

The IDS filed March 30, 2001 has been received and is signed and considered, a copy of the PTO 1449 is attached to the following document.

Reasons For Allowance

The invention is a microsize driving device which comprises:

- (a) a substrate having a linear track groove;
- (b) an arrangement of motor protein molecules deposited on the bottom of the linear track groove; and
- (c) track proteins disposed on the arrangement of the motor protein molecules, the linear track groove having side surfaces shaped in a moving direction controlling structure which permits a linear movement of the track proteins moving in a specific

Art Unit: 1653

direction but inhibits the track proteins moving in a direction reverse to the said specific direction to cause reversion for the movement in the said specific direction.

The prior art does not teach every limitation of **claim 1**, nor does the prior art render the claim obvious, in particular in view of the limitation wherein the motor protein molecules are deposited on the bottom of the linear track groove.

EXAMINER'S AMENDMENT

This application is in condition for allowance except for the presence of **claim 10** non-elected without traverse. Accordingly, **claim 10** been cancelled.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please cancel **claim 10**.
